Login Assistance:

If you are unable to login after entering the user name and password- giving a message “ System Requirement” or system is not responding after Digital Signature Process. Then follow below steps.

Open new tab and type: <https://127.0.0.1:2077/>

Click on advanced

Click on add exception

Click on add security exception

Close browser and exit emSigner from Taskbar

Restart the emSigner on desktop by right clicking on emSigner icon and make sure you run as administrator and wait till emSigner is started successfully.

Note:-

Make sure that the antivirus is disabled

Have emSigner downloaded from homepage under downloads

If the system displays a message titled '**System Requirement**' after entering the user name and password, please follow the below process

Click on '**Install**' to install emSigner on your system if it hasn't been installed yet.

If the emSigner has been installed on your system and the service is currently running, select '**No, I Already Have**' and proceed with following procedure.

The screenshot shows the eGP Portal - Tenders interface. A modal dialog box titled "System Requirement" is centered on the screen. The dialog contains the following text:

This System Requires emSigner to login and registration.
Click on " **INSTALL** " to download the emSigner

If downloaded click on " **NO I ALREADY HAVE** " - Go to your Desktop,
Right-click on the emSigner icon and run the program by selecting Run as administrator
and after **emSigner started Successfully** click on " **OK** "

At the bottom of the dialog, there are two buttons: "No, I Already Have" (highlighted with a red box and a red arrow pointing to it) and "Install".

The background page shows the eGP Portal header with the Hon'ble Chief Minister Nara Chandrababu Naidu's portrait. Below the header, there are sections for "Important Alerts!", "Tenders" (with a bar chart titled "Tenders Published" showing data from 2019 to 2025), and a list of tender details including Tender ID, IFB No/Tender No, and Bid Closing Date.

Open the emSigner Service and check if any port binding errors were observed then minimise the Service by Clicking on “ **Hide Service**”.

The screenshot shows a Windows desktop with a dark, textured background. In the top-left corner, the Adobe Acrobat logo is visible. The central focus is the emSigner service window, which has a white title bar and a logo in the top-left. The window contains a text area with the following content:

Server configured on port 2077

Congrats! emSigner service started successfully.
127.0.0.1 connected to the server

some errors like port binding failed may not be assignable to a specific websocket
some errors like port binding failed may not be assignable to a specific websocket
org.java.websocket.WebSocketImpl@3e090f disconnected from server.

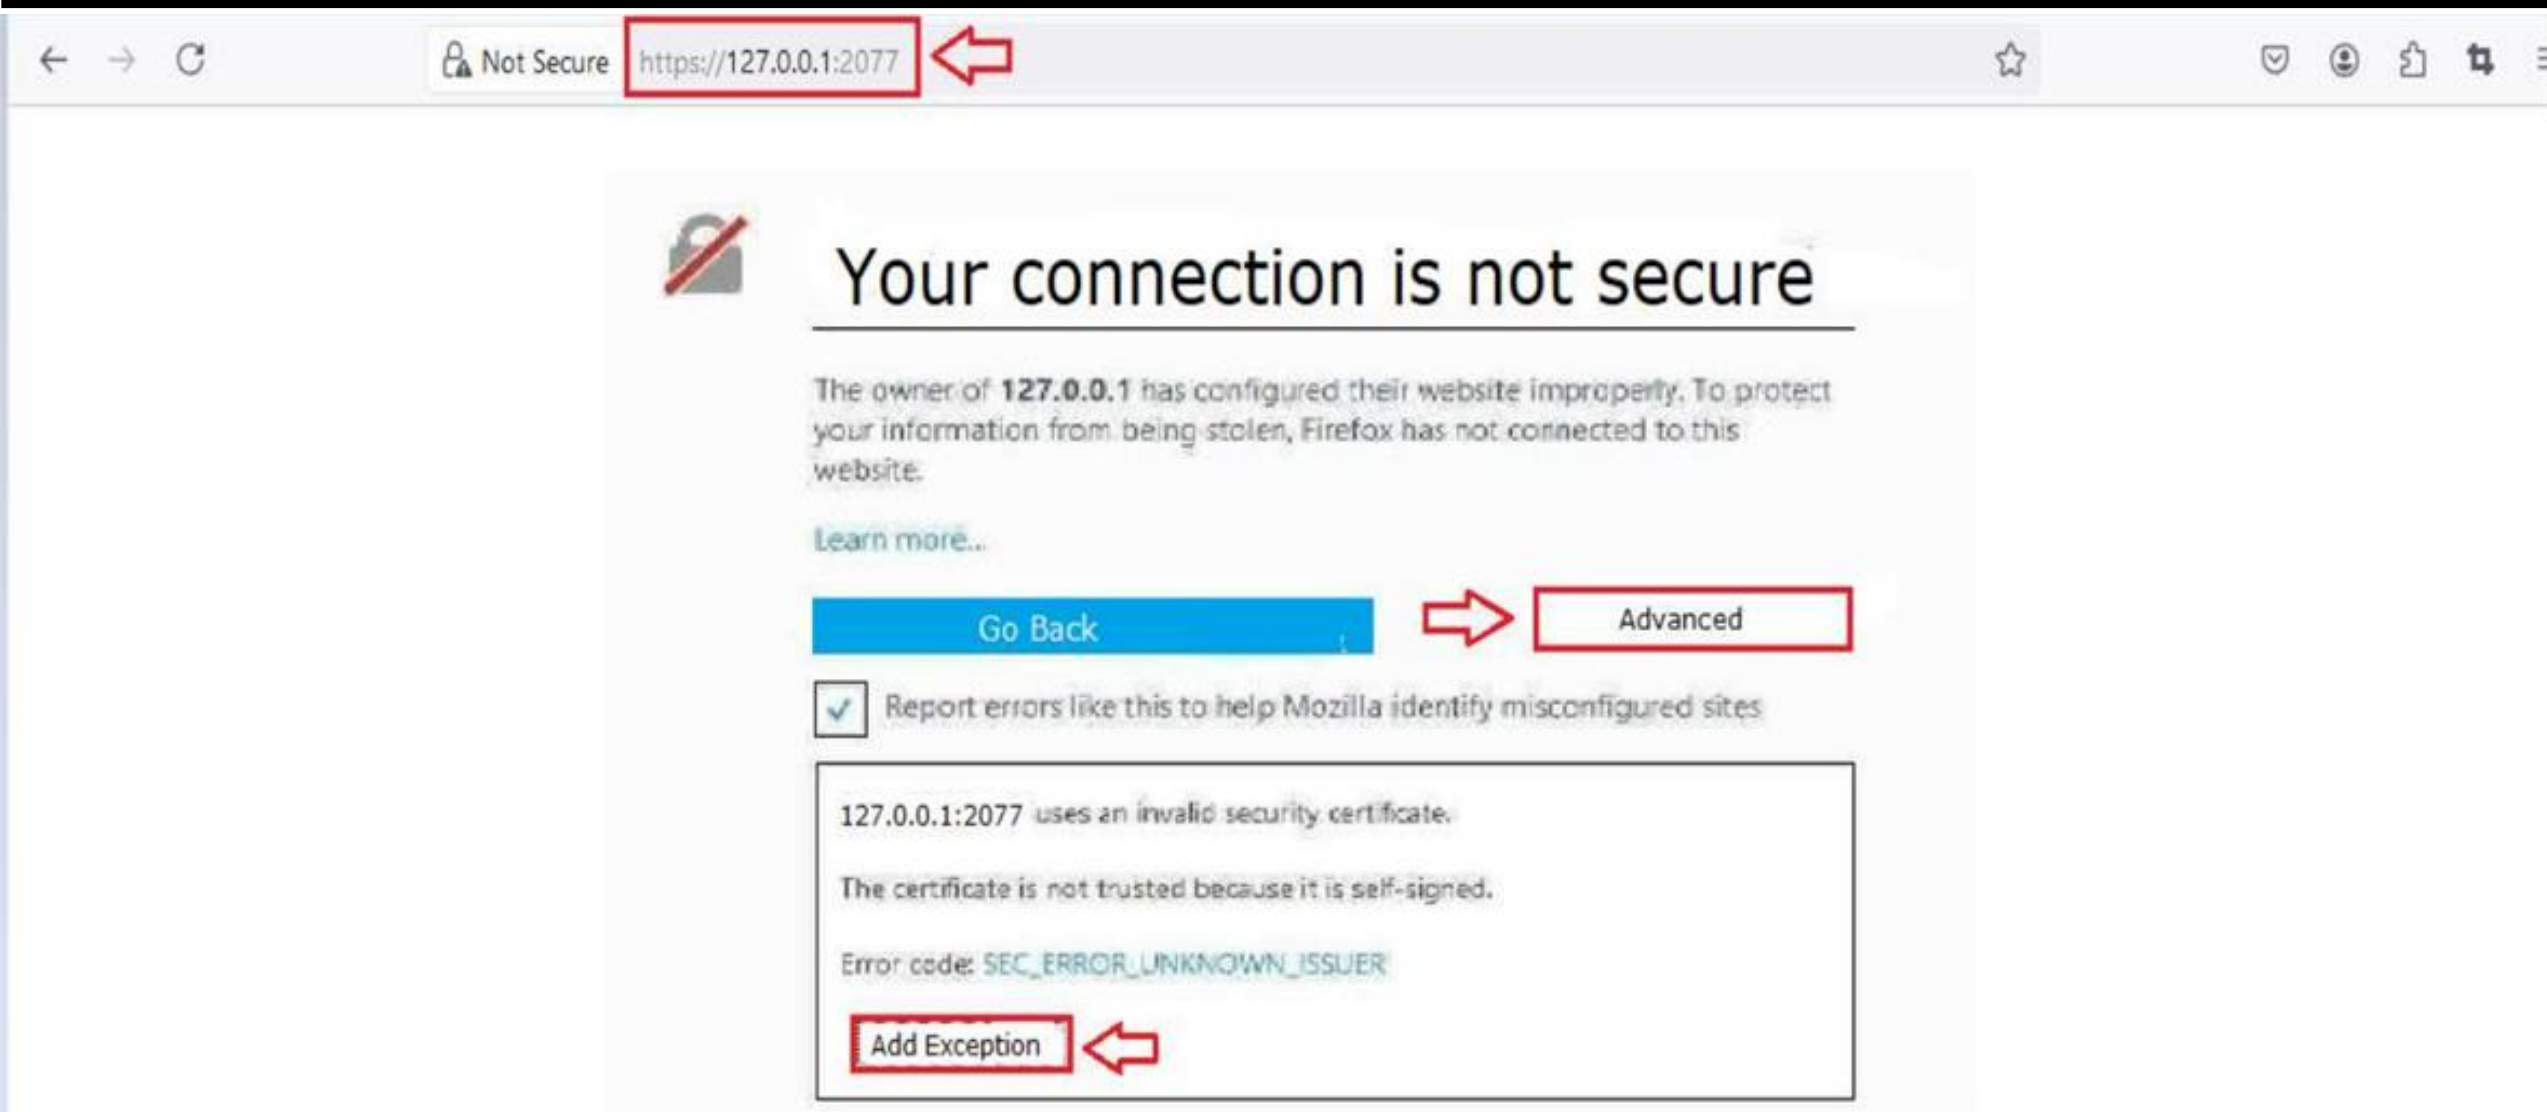

At the bottom of the window, there are two buttons: "Hide Service" (highlighted with a red border) and "Stop Service".

In the bottom-right corner, a taskbar is visible with a context menu open. The menu has two options: "Open" (highlighted in blue) and "Exit".

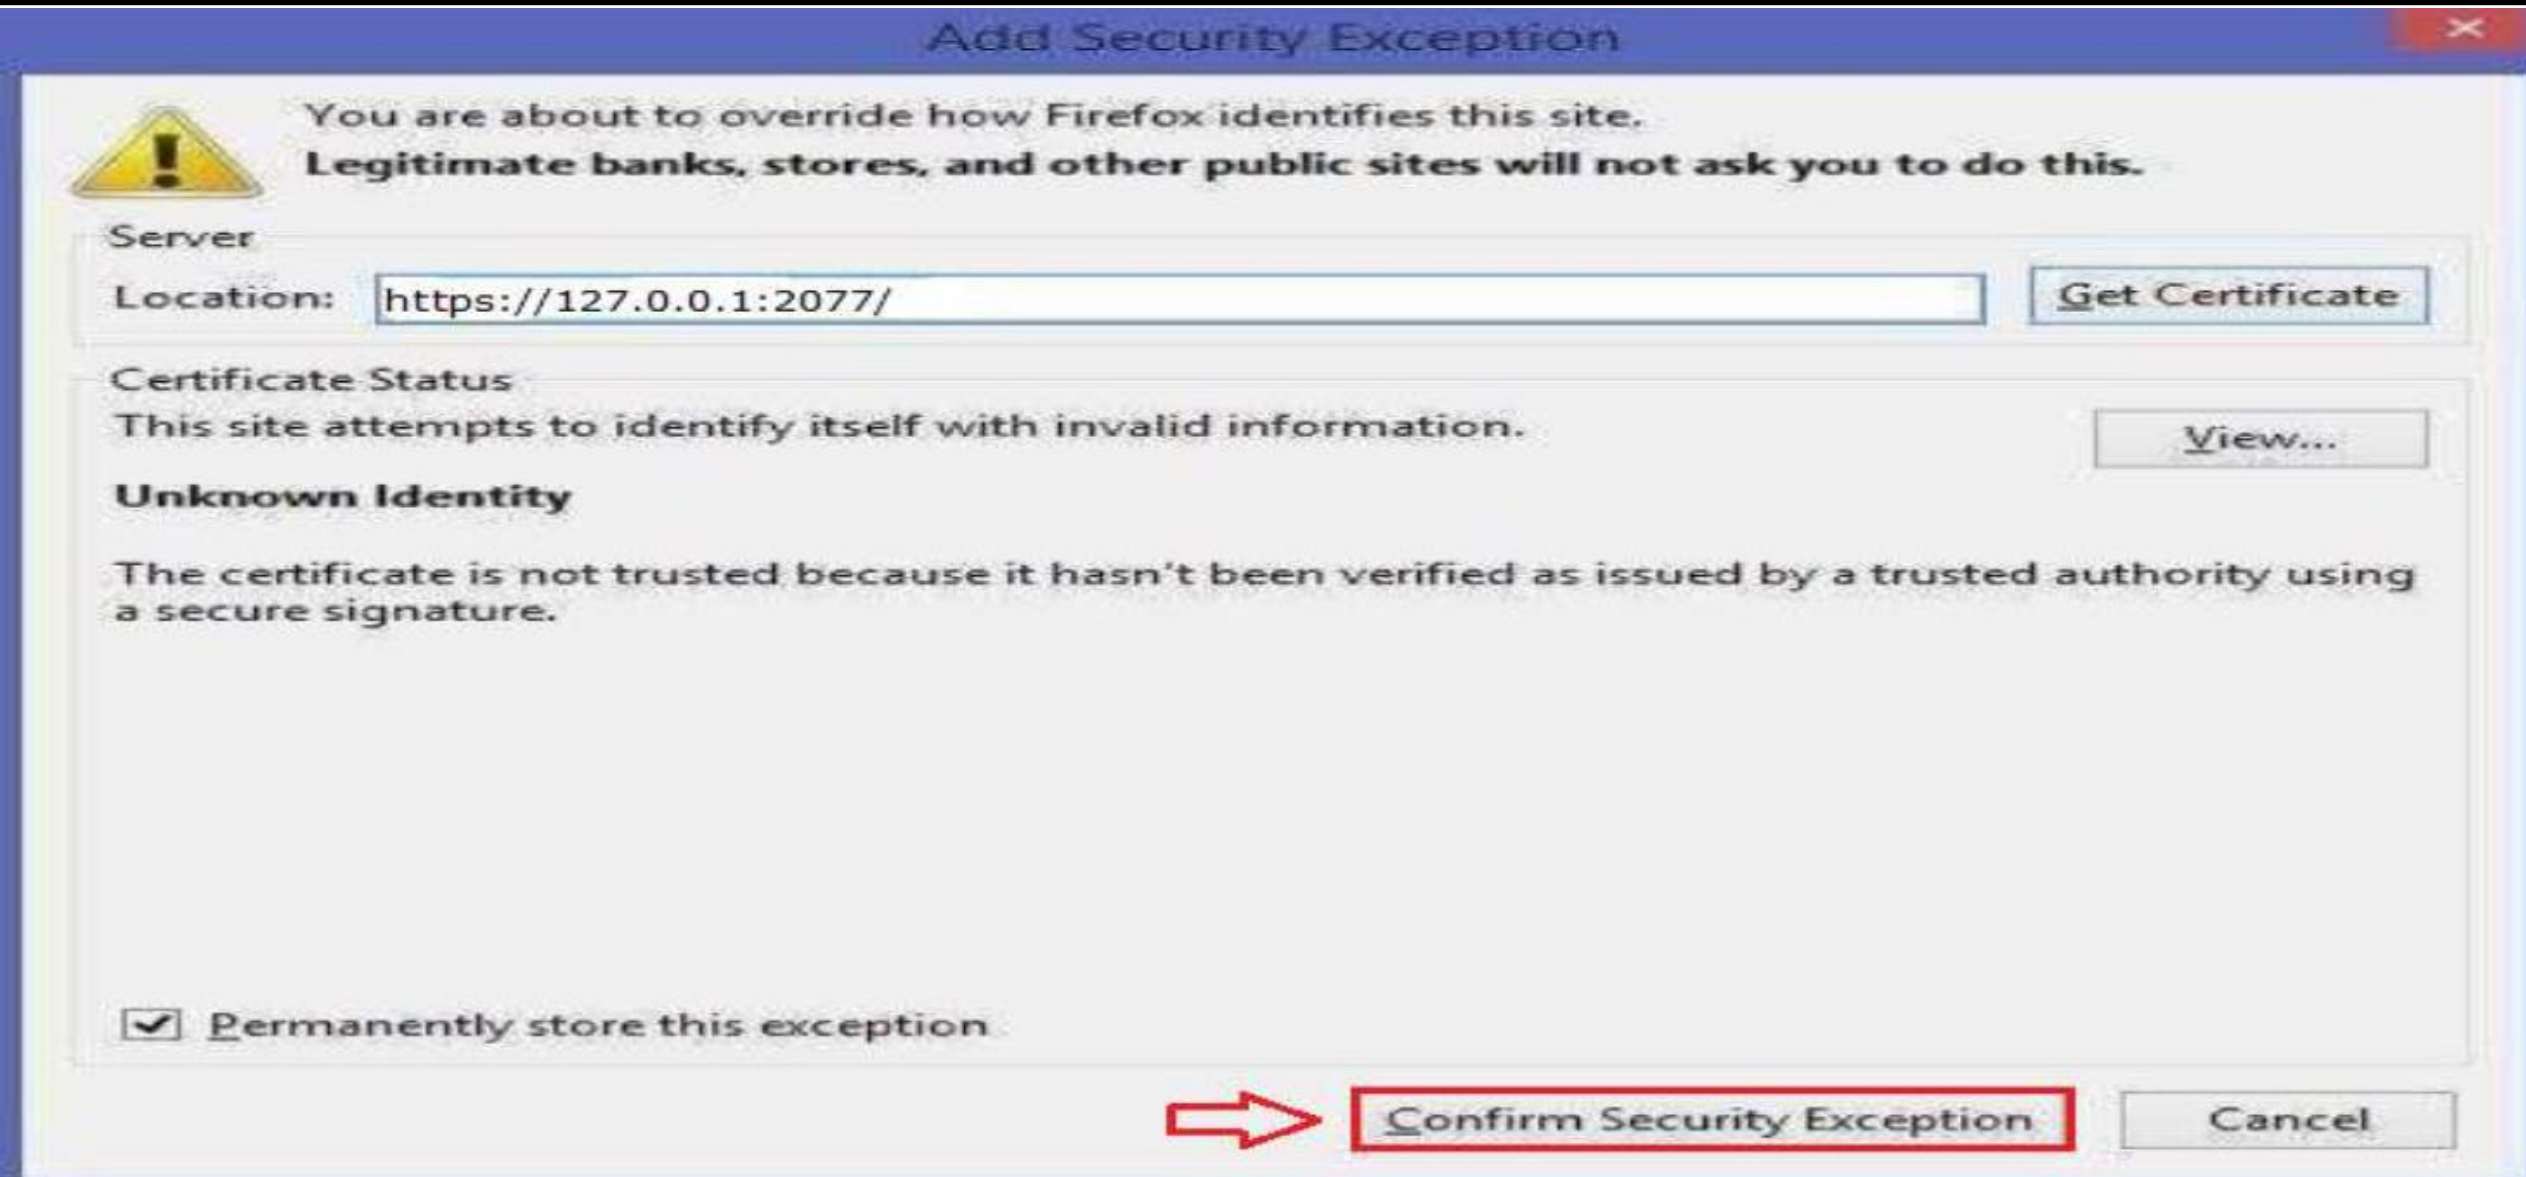

The Windows taskbar at the bottom includes the Start button, a search bar, and several application icons. The system tray in the bottom-right corner shows the date and time as 11:27 on 05-03-2026, along with icons for language (ENG IN), network, and power.

At the very bottom, there is a small text overlay: "Evaluation copy. Build 26220.7934.ge_release_svc_betaflt_prod1.260223-2038".

Open a new tab and enter the exception URL <https://127.0.0.1:2077/>
Click on **Advance** and then click on **add exception**.

Click on “ **Confirm Security Exception**”. The following message will be displayed after confirming the security exception ” **Secuirty Connection Failed**”- in Mozilla Browser
